

Name: Jake Yimga-Nji Ngatchu
 Award: Bachelor of Science
 Fields of study: Business Management and Computer Science
 Classification: Second Class Honours (Division I)
 Award date: 12 October 2022

This Higher Education Achievement Report incorporates the model developed by the European Commission, Council of Europe and UNESCO/CEPES for the Diploma Supplement. The purpose of the Supplement is to provide sufficient recognition of qualifications (diplomas, degrees, certificates etc). It is designed to provide a description of the nature, level, context and status of the studies that were pursued and successfully completed by the individual named on the original qualifications to which this Supplement is appended. It should be free from any value judgements, equivalence statements or suggestions about recognition. Information in all eight sections should be provided. Where information is not provided, an explanation should give the reason why. Keele University only produces HEARs in a digital format. Only HEARs accessed via www.gradintel.com can be considered valid and verified.

1. Information identifying the holder of the qualification

- | | | |
|------------|--|-----------------|
| 1.1 | Family name: | Ngatchu |
| 1.2 | Given names: | Jake Yimga-Nji |
| 1.3 | Date of birth (day/month/year): | 23 October 1998 |
| 1.4 | Student identification number: | 18021745 |
| | HESA identification number: | 1811210033460 |
- HUSID (HESA Unique Student Identifier) is the unique national identifying number for students registered at a UK university. It is defined by HESA, the UK's Higher Education Statistics Agency.*

2. Information identifying the qualification

- | | | |
|------------|--|--|
| 2.1 | Name of qualification and (if applicable) title conferred: | Bachelor of Science
The power to award degrees is regulated by law in the UK. |
| 2.2 | Main field(s) of study for the qualification: | Business Management and Computer Science |
| 2.3 | Name and status of awarding institution: | Keele University |
| 2.4 | Name and status of institution (if different from 2.3) administering studies: | As awarding institution |
| 2.5 | Language(s) of instruction and examination: | English |

3. Information on the level of the qualification

- 3.1 HESA level of qualification:** First Degree
- 3.2 Official length of programme:** 3 years
- 3.3 Access requirement(s):**
Please refer to <http://www.keele.ac.uk/studyatkeele/undergraduatestudy/entryrequirements> for full details.

4. Information on the contents and results gained

4.1 Mode of study:

Year	Mode of Study
2018/9	Full-time
2019/0	Repeat on a Modular basis
2020/1	Full-time
2021/2	Full-time
2022/3	Dormant Previously Full-time

4.2 Programme requirements:

Listed below are details of the intended learning outcomes for the subject(s) studied.

Business Management

We hope that through full engagement with the Dual Honours course, students will be able to develop a range of attributes or skills that not only set them apart from other Management graduates but that stay with them for the rest of their working lives. These attributes include: An open and questioning approach to ideas; curiosity, independence of thought and the ability to appreciate the historical, sociological, political and economic contexts of Management. An appreciation of the development and value of ideas within Management scholarship and practice; their contexts, the links between Management and other disciplines, and the provisional and dynamic nature of theoretical advances in this field of research. The ability to gather, evaluate and synthesise large amounts of frequently conflicting information, ideas and data relevant to the study of Management. The ability to solve current problems in Management by applying a range of different theories, creative approaches and techniques, and to develop the judgement skills to choose between them. The capability to act as responsible managers and to perform leadership roles in developing sustainable and socially responsible organisations. The ability to communicate clearly and effectively about Management issues in written and verbal forms for different purposes and to a variety of audiences. The knowledge, skills, self-confidence and self-awareness to actively pursue future goals, whether they be Management-related or not. The ability and motivation to participate responsibly and collaboratively as an active citizen in the communities in which they live and work. A professional and reflective approach; qualities of leadership, responsibility, personal integrity, empathy, care and respect for others, accountability and self-regulation. The flexibility to thrive in rapidly changing and uncertain external environments and to update skills and knowledge as circumstances require. The aptitude to appreciate and cherish diversity and comprehend the ties between local, national and global issues and appreciate their impact on management, organisations and the world of work in general. A better understanding of organisations from the outside, prior to joining one and experiencing it from the inside.

Computer Science

Graduates will have a sound knowledge and understanding of Computer Science and allied subjects within Computing that will serve as a basis for employment or advanced study, developed in an environment of excellence in research, teaching and scholarship. They will have been trained in a range

of technical, practical, problem-solving, IT and transferable skills and have been given the vocabulary and technical expertise that will equip them for a future career in Computer Science or the broader IT and Computing sector. They will have acquired an understanding of appropriate theory and practical skills to specify, design, implement, document and evaluate computer applications, and present cases involving a quantitative and qualitative dimension, guided by professional, ethical and legal practices. They will have integrated and applied this combination of theoretical knowledge and problem-solving skills to a substantial programming, research or business problem.

More information on the structure of our programmes can be found at <http://www.keele.ac.uk/ugcourses> and <http://www.keele.ac.uk/regulations>.

Special Feature

Through making the most of the distinctive opportunities and experiences that a Keele education provides, the Keele Graduate is equipped with the knowledge, skills, attitudes and values - the Keele Graduate Attributes - to contribute to society, as both a good scholar and a responsible graduate with self-knowledge and self-direction.

4.3 Programme details, and the individual grades/marks/credits obtained:

Programme start date 24 September 2018

Programme end date 12 October 2022

Module Code	Title	Attempt	FHEQ Level	Mark	Grade	Credits	ECTS Credits	Result
CSC-10024	Programming I - Programming Fundamentals	2	4	40	P	15	7.5	Passed
CSC-10029	Fundamentals of Computing	1	4	40	P	15	7.5	Passed
CSC-10032	Information Systems and Interaction	1	4	74	P	15	7.5	Passed

MAN-30048	Business Strategy	1	6	63	P	15	7.5	Passed
MAN-30056	Comparative Business Cultures	1	6	58	P	15	7.5	Passed
TOTAL YEAR 2021/2 CREDITS						120	60.0	
TOTAL CREDITS AWARDED						360	180.0	

4.4 Grading scheme and, if available, grade distribution guidance:

The pass mark for a module is 40%, except for Level 7 modules where it is 50%.

For modules that are passed at a second or subsequent attempt, the module mark is capped at the pass mark.

The following module grades are used:

P	Pass
P*	Module passed and credits awarded but due to the impact of the Covid-19 pandemic, not all assessments or re-assessments were completed so that a module mark could not be calculated in the usual way
F or FF	Fail
Q	Qualified fail - the required mark for one or more assessment components has not been met
ECTS	European Credit Transfer System - 2 Credits are equivalent to 1 ECTS Credit
70-100:	1st First Class Honours
60-69:	2:1 Second Class Honours (Division I)
50-59:	2:2 Second Class Honours (Division II)
40-49:	3rd Third Class Honours
0-39:	Fail (Under certain conditions a Pass degree, which is unclassified, may be awarded)

Full details of the classification schemes for all undergraduate programmes, including the weighting applied to modules at each level of study, can be found at:

<http://www.https://www.keele.ac.uk/qa/degreeclassification/>

4.5 Overall classification of the qualification Second Class Honours (Division I) (in original language):

5. Information on the function of the qualification

5.1 Access to further study:

The attainment of an undergraduate award may entitle access to studies at postgraduate level.

5.2 Professional status (if applicable):

Not applicable

6. Additional information

6.1 Other Verified Achievements and Activities:

Keele University has an agreed set of HEAR-recordable achievements and activities that students can attain outside their academic curriculum, a full list of which can be found at <http://www.keele.ac.uk/hear/hearactivities/> This includes prizes and awards and other co-curricular activities verified by the University. Any such achievements and activities that a student has attained are listed in this section of the HEAR.

6.2 Further information sources:

Further information about Keele University can be found at <http://www.keele.ac.uk> Please contact us on hear@keele.ac.uk with any HEAR related queries.

7. Certification of the HEAR

7.1 Date of award:

12 October 2022

7.2 Signature:

Victoria Macfarlane

7.3 Capacity:

Academic Registrar

7.4 Official stamp or seal:

8. Information on the National Higher Education System

The Higher Education Description for England, Wales and Northern Ireland (description and accompanying diagram) are available at:

<https://www.keele.ac.uk/students/academiclife/studentrecords/hear/usefulcontactsandfurtherinformation/>
